

Page: 189

bank('Speedy', 20) : Speedy says woof woof

bank('Bannaby', -1) : Bannaby says woof woof

bank('Scottie', 0, 0) : ~~bank~~ bank has 2 arguments, but here  
3 were given

bank('Lady', '20') : here "20" is inserted as string, which  
won't work with the conditional  
if weight > 20 :

~~since w~~

bank('Spot', 10) : Spot says woof woof

bank('Rover', 21) : Rover says WOOF WOOF
