```
Smoothies = ['coconut', 'strawberry', 'banana',  
             'pineapple', 'acai berry']
```

First way,

```
most_recent = Smoothies[-1] # Using negative  
print(most_recent)          # index numbering
```

~~#~~ Second way,

```
most_recent = len(Smoothies) - 1  
recent = Smoothies[most_recent]  
print(recent)
```
