Dog Age Calculator:

Dog's Chronological Age → Dog's Age in
Relative Human Years

Multiply Chronological years by 7

Pseudocode:

1. Ask the user for the dog's name
2. Ask the user for the dog's age in
   Chronological years.
3. Multiply dog's age by 7 to get dog's
   age in human years.
4. Output to the user:

   "Your dog"
   the dog's name
   "is"
   the dog's age in human years
   "years old in human years"
